

Plan of Action : ART

Grade 4 E

Week : 1-5 June 2020

You can complete the work anytime during the week when you have allocated time and make sure you enjoy it!

1)I include a page A, which reminds you that you need to warm up for any work in Art. So pretend you are a big artist who is going to perform or work every day and needs to warm up. Do a few of the stunts every morning.

2)You remember our discussions in class about keeping rhythm with parts of your body? You need to practise a sequense, by keeping the beats with these body parts to your favourite song (play or sing) to perform in class.

3)We are drawing in block 11 already and you can draw something that you miss the most by not going to school. (Is the block "big" enough?)(***)

4)See the activity, also included, to have some fun.

Keep well!
